TRAN, ANDREW Q

ART UNIT

PAPER NUMBER

2824

DATE MAILED: 04/05/2005

Please find below and/or attached an Office communication concerning this application or proceeding.

Art Unit: 2824

The reply filed on December 02, 2004 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s):

A substitute specification including the claims is required pursuant to 37 CFR 1.125(a) because the interlineations or cancellations in the specification and amendments to the claims, successively made on May 30, 2001 and October 09, 2001 could render difficult further reconsideration of application, and could lead to confusion and mistake during the issue and printing processes. Accordingly, the specification and the claims are required to be rewritten. See 37 CFR 1.125 and MPEP § 608.01(q).

A substitute specification must not contain new matter. The substitute specification must be submitted with markings showing all the changes relative to the immediate prior version of the specification of record. The text of any added subject matter must be shown by underlining the added text. The text of any deleted matter must be shown by strike-through except that double brackets placed before and after the deleted characters may be used to show deletion of five or fewer consecutive characters. The text of any deleted subject matter must be shown by being placed within double brackets if strike-through cannot be easily perceived. An accompanying clean version (without markings) and a statement that the substitute specification contains no new matter must also be supplied. Numbering the paragraphs of the specification of record is not considered a change that must be shown.

See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. **EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).**
